THE STUDENTS ARMY TRAINING CORPS

Descriptive Circular

1. **ADMINISTRATION:** The Students Army Training Corps is administered by the Committee on Education and Special Training, of the War Department, Second Floor, Mills Building, Washington, D. C.

2. **PURPOSE:** The primary purpose of the Students Army Training Corps is to utilize the executive and teaching personnel and the physical equipment of the educational institutions to assist in the training of our new armies. These facilities will be especially useful for the training of officer-candidates and technical experts of all kinds to meet the needs of the service. This training is conducted in about 600 colleges, universities, professional, technical and trade schools of the country.

3. **VOCATIONAL AND COLLEGIATE SECTIONS:** The Corps is divided into two sections, the Collegiate or "A" Section and the Vocational or "B" Section. The units of the "B" Section were formerly known as National Army Training Detachments. They aim to train soldiers for service as trade specialists in the Army. As the program for vocational training is now virtually completed, few, if any, new units of this type will for the present be added.

The "A," or Collegiate Section, which was inaugurated October 1st, is open to registrants who are members of some authorized college, university or professional school.

Students of authorized institutions join the Students Army Training Corps by voluntary induction into the service. They then become members of the Army on active duty, receiving pay and subsistence, subject to military orders, and living in barracks under military discipline in exactly the same manner as any other soldier.

The housing, subsistence and instruction of soldiers in both branches of the Students Army Training Corps is provided by educational institutions under contract with the Government. A list of such institutions will be found at the end of this circular.

4. CHOICE OF SERVICE: The members of the Students Army Training Corps are voluntarily inducted into the service, and are ordinarily allowed to choose the branch of the service for which they wish to be prepared. This freedom of choice, however, is not absolute. It depends upon the individual's qualifications and upon the needs of the service at any particular time.

5. OPPORTUNITIES: The status of a member of the Students Army Training Corps is that of a private. Members of a Collegiate or "A" Section who show by their rating in academic and military work that they have unusual ability may be:

- a. Transferred to a Central Officers' Training School;
- b. Transferred to a Non-Commissioned Officers' School;
- c. Assigned to the institution where they are enrolled for further intensive work in a specified line as, for instance, in engineering, chemistry or medicine.

Those members of a Collegiate Section

whose record is such as not to justify the Government in continuing their collegiate training may be:

- a. Assigned to a Vocational Training Section for technical training of military value;
- b. Transferred to a cantonment for duty with troops as a private.

Members of a Vocational Section who show exceptional fitness or promise may be recommended for officers' or non-commissioned officers' schools, or may be continued at institutions for more advanced study.

5. RELATION TO DRAFT: Members of the Students Army Training Corps, having already been inducted into the service, will thereafter not be subject to call by their Local Boards. It is expected that the members of Collegiate Sections will be transferred from institutions every three months in age groups, the twenty-year-old men going first, the nineteen-year-old men going next, and the eighteen-year-old men last, roughly corresponding to the periods at which men of these ages will be called under the Selective Service Law. As these groups leave the colleges their places will be taken by new contingents obtained by individual induction or, if necessary, from depot brigades. Students of such subjects as engineering, chemistry and medicine may be required to finish their courses where the needs of the service make this desirable.

Members of Vocational Sections will ordinarily remain at the institution for two months and will then be assigned to various branches of the service in which technicians are needed.

It is impossible to say absolutely how long the training of any particular man will continue since this will depend upon the capacity of the individual and upon the changing needs of the service.

6. CURRICULA: In addition to 11 hours per week of military training the course of study of the men in the Collegiate Section of the Students Army Training Corps will consist of the ordinary college or technical courses grouped and modified in such ways as are necessary to meet the needs of the War Department. Students in colleges of Liberal Arts will have as much free election as it is possible to give them. Students in engineering, medical, law, and other professional or technical schools will pursue special curricula approved by the War Department.

Members of Vocational Sections will pursue such subjects as auto-driving, auto-repair, bench woodwork, sheet metal work and electrical work, etc., in addition to 15½ hours per week of military training.

Members of both sections will attend courses on the Issues of the War.

7. ADMISSION REQUIREMENTS: Registrants who have a grammar school education or equivalent trade experience are eligible for Vocational Sections. Eligible registrants may be inducted into these sections, either by special calls issued to the Local Boards, or by individual voluntary induction upon application to the Committee in Washington. For the present, candidates are advised to apply at their Local Boards.

Registrants who are graduates of standard four-year secondary schools or have equivalent educational qualifications are eligible for

Collegiate Sections and will be inducted at the institutions to which they secure admission. The admission requirements into the colleges, and hence into the Students Army Training Corps, have been left substantially as they were. Young men seeking information as to how to join a Collegiate Unit of the Corps should apply not to the War Department, but to the Dean or Registrar of the college of their choice.

Only registrants, physically qualified for general or limited service, are eligible for the Students Army Training Corps. Except in case of certain specially qualified technical and professional students, registrants prior to September 12, 1918, of Class I, Group A (physically qualified for general service), are ineligible for induction into Collegiate Sections; but registrants prior to September 12, 1918, of Medical Group C (limited service) or the deferred classes are eligible.

8. NAVY: At certain specified institutions, named hereafter, a limited number of registrants may, upon indicating their preference, be inducted into the Navy or the Marine Corps. Such men will wear naval uniforms, and pay their own expenses individually from an allowance made to them by the Navy Department. The Naval and Marine Sections will attend all drills and exercises of the Students Army Training Corps.

The following is a list of authorized institutions, S.A.T.C. Section "A," S.A.T.C. Section "B" (Training Detachments) Naval Sections and Marine Sections. This list is subject to change.
