#### Our Eighth Homecoming

Each year at this time of the fall season, C. U. puts on her best show for her alumni. This year she presents for their benefit one of the feature games in this section of the country and should her team come through with a victory, the name of C. U. will rank among the leaders of the East. Western Maryland, our opponent this coming Saturday, has startled and amazed football critics week after week. We do not in the least dispute the strength of this hardy band of mountaineers from western Maryland. Practically all of their games are played away from their school. This fact makes it all the more creditable that they chalk up so many victories. Bill Shepherd, who leads the small squad of twentyodd men, is by a wide margin the leading scorer in the country, averaging ten points and more a game.

This eighth Homecoming of C. U. Alumni also marks the renewal of athletic relations with Western Maryland, which were severed just ten years ago. The Flying Cardinals hope this year to break the streak of losses for homecoming games. Coach Bergman has his team polished and trimmed for Saturday afternoon and is hoping to keep it on the crest of a wave of football glory that it is now riding. Grantland Rice avers that Western Maryland is not having a real test as to how strong they really are until they meet a real test as to how strong they really are until they meet last Saturday eve. U. men will joyfully recount their endless glorious deeds at the very mention of these immortals. Through all these tales will run the thread of the spirit that was Catholic University. And the alumni will be back, searching with probing eyes, asking themselves whether that old spirit is still here.

Will they find the real tradition of C. U. loyalty which they left behind them? Can we of the present truthfully maintain that there is a unified spirit in back of the team in victory and defeat alike? Are we not more than a bit critical of faults, and inclined to forget good points when mistakes are made? Is there not danger that our spirit may be the fair-weather sort?

The Freshmen are not the only students of the Campus upon whom the responsibility rests for good healthy cheering. The Student Council has requested all students to sit | young men of Manhattan. Possibly in in the section for students in the grandstand and give united large numbers influenced the support to the team. Some of the energy which the students put forth in excoriating players and coaches might well be saved and used at the proper time—the football game on Saturday.

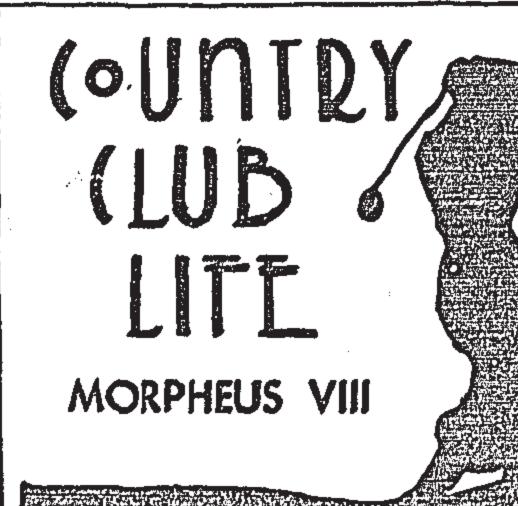

That's all that will be needed to send the older men of C. U. home with the conviction that loyalty to Alma Mater has been bravely guarded.

### The Eucharistic Congress

There is more than ordinary significance in the Eucharistic Congress which has been in session in Buenos Aires. Here is a comparatively remote city to which pilgrims from all over the world, at great expense, have come by the hundred thousand in adoration of the Blessed Sacrament and in testimony of their faith in an age of doubt. Here half a million people crowded around a cathedral, overflowing the building and the additional quarter million seating capacity provided in the park, reverently waiting for the elevation of the host and listening with uncovered heads, in spite of the intense heat of the Argentine sun, to the chanting of the Agnus Doi,

We cannot lightly dismiss such a demonstration of faith. We may commend ourselves on our scientific research, but science depends upon the verification of facts. And there are facts beyond facts in the Buenos Aires ceremony. When people in an enlightened age coming from far and near congregate in such numbers as they have in the Argentine city to to win, as the practice sessions contestify in person to their confident belief in the truths and taining foo's plays are so much the rituals of their religion it is not scientific to declare that | caster than actual seriomage will these people are superstitious and that religious creeds are the Flying Cards. # Let's find out why Turkish tobacco is so important to a good cigarette

On the sunny slopes of Smyrna... in the fertile fields of Macedonia...along the shores of the Black Sea ... grows a kind of tobacco that is different from any other tobacco in the world.

HESE Turkish tobaccos A are the only tobaccos of foreign cultivation that are used to any great extent in making American cigarettes.

Turkish tobaccos are famous for their spicy aroma, and a blend of the right kinds of Turkish tobacco with our own home-grown tobaccos is better than any one kind used alone.

In Chesterfield we balance mild, ripe tobaccos grown in this country with just the right amounts of the right kinds of Turkish.

It is by blending and crossblending these different tobaccos that we make Chesterfield the cigarette that's milder, the cigarette that tastes better,

### The Soap Box

This is the time of the year when imaginations stretch to the heaking point. Every son of Catholic U. in every little section of this great nation of wheat fields and dirty smokestacks is reminiscing. Imaginations and memories play dirty tricks on people, but it makes life sort of worth the living to put away the cares and to think of the days we spent at C. U. And every one of us honestly believes that the football team and the fellows that were there "in my time" were the greatest and "don't you think for a minute that if ———— had been at Yale that year he'd a been an all-American?" To be sure, this is harvest time, and all the things of the world out beyond the campus "the greatest of the great," Red cided to become acquainted with to once more view the even change are being stored away and minds are turned to the yellow pigskin. Then, if we remember right, our Rector declared his "back. Sheary, backs. yard" policy, and the two institutions of higher learning played the following year for the last time. Ever since then the two schools have Gene Murphy out of the first been deciding the city championship by the comparative score method. Boys, we eat this stuff up. Are you reading this with envy, "Slappy" Heltzel? And how about you, Petronella?

We gathered around the radio down at P. D. McDonald's dugout the other night, and the "bull" flowed freely. P. D. passed out a quantity of his latest brand of new cigars and then took off the smoked glasses, much to Michael "Hop" Sweeney's disgust. Incidentally, "Hop" got out of here in 1930 and managed the football eleven that year, and, with "Jiggs" Murphy as his stooge, was the cream of the comedians back before the depression. Which reminds us we once knew a red-head who lived there; called himself "Dot" Murray. To get on with the tale, "Doc" was a great boy, filled with the old pep, an

original member of the Utopes, and has been coming back here ever since leaving us to relate tales of the Church in international affairs, the good old days in a most grandiloquent manner (although it is said that be doorn't like to be called "Dee" any more). Club Promoted for Important Purpose

An outline of study in international relations for Catholic Colleges and lay groups has just been issued by the Catholic Association for International Peace in Washington, with a foreword stating the aims and objects of both the Association and the syllabus by Dr. Herbert Wright, Professor of International Law at the University and president of the Peace Association.

The object of the new syllabus. according to Dr. Wright, is "to present to as wide a group of individuals as possible at minimum for the most important questions involving the relations between nations, particularly those concerning the United States and its share in solving them.'

Catholic schools and lay groups have long sought a means for the directed study of international problems from the Catholic viewpoint and with a complete underpaigns for peace throughout the centuries provide a foundation for

## Social Service As Whelan Started Greatest Run Ever Made in C. U. Stadium

The scene pictured above portrays, Thomas, J. (Joseph). Whelan as he ripped off a 90-yard run against the University of Chattanooga, in 1932. C. U. won 19 to 0. Whelan ran cross-field twice, each Chattanooga man getting two shots at him. In the scene are Bus Sheary, '32 captain; "Lover" Jankowski, '33 captain; and "Boss" Fleming, '34.

#### TWO PAPERS NEEDED ON THE CAMPUS

There is apparently a prevalent opinion on the Campus that the TOWER was organized and published to replace the Symposium. We wish to corect this erroncous impression at the outset, and to lay emphasis on the fact that there is no connection whatever between these two publications. From their very nature they are fundamentally separate and distinct, and any attempt to combine the two must seri-

## COLLEGIATE VISTA

By JERRY MackAVANAGH

This week is "For Old Times Sake" Week. We extend a hearty welcome to the grads—butcher, baker, candlestick maker, all—and we hope your stay will be a merry one. I am sure you couldn't find a SDIFIT TERM 17 worthier football team or student body to hear the name of C. U. A as you will find here at your old stamping grounds. Well, I must be on with this week's story. \* \* \* A professor at the New River State College gave the following answer as to why so many people attend a rope and ride a steed between football games: "One half go to see the game, while the other half halves.
